

REMARKS

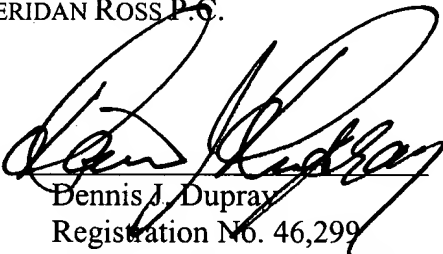

The claims have been amended to correct errors (e.g., antecedent basis references), and to make the claims easier to read. Additional amendments to the scope of some dependent claims are provided; e.g., Claims 12 and 16. However, it is believed that none of the claim amendments herein affect the patentability of the claims. Accordingly, since all pending claims have been previously allowed, it is believed that the present claims with their amendments are also allowable. If the Examiner determines that one or more of the above-amended claims are no longer allowable, it is respectfully requested that the Examiner contact by phone the undersigned Applicants' representative so that appropriate claim changes can be promptly entered in order that a patent on the present application is timely granted.

Applicant believes that there are no fees due in connection with the filing of this paper. However, in the event that any fees are due, please charge Deposit Account No. 19-1970.

Respectfully submitted
